

Noah Brown

(254) 392-2339 | njb768@iastate.edu | njbrown.njb06@gmail.com | Kansas City, KS

Objective

Aerospace engineering student seeking a Summer 2027 internship or co-op to gain hands-on engineering experience and contribute to challenging projects; willing to relocate.

Education

Iowa State University, Ames, IA

Anticipated May 2029

Bachelor of Science in Aerospace Engineering | Minor in Non-Destructive Evaluation

GPA: 3.55/4.00

Dean's List

Planned Supplemental Coursework: Supply Chain Management; Transportation Carrier Management; War and Peace and Supply Chains; Deans Leadership Seminar

Employment Experience

Target, Stadium Pkwy, Kansas City, KS

May 2025 - Present

Team Member

- Restocked, organized, and maintained general merchandise areas during closing shifts while supporting guest service, inventory accuracy, and store presentation.

Academic Project Experience

Lighter Than Air Project

August 2025 - December 2025

Team Leader

- Led development of flight-capable craft, making final design decisions, running team meetings to maintain progress, and assigning tasks by team strengths for integration.

Cyclone Rocketry

August 2025 - Present

Aerostructures Team Member

- Maintained and repaired the X-winder for composite body tube fabrication, post-processed tubes, fabricated a custom coupler, and assembled the rocket for launch.

SolidWorks Project

January 2026 – May 2026

Team Leader

- 3D modeled a KC-135 Stratotanker in SolidWorks using real-world dimensions and references; documented design methods and features in a formal report and PowerPoint.

Independent Projects

December 2025 - Present

- **Engineering Assistant** – In Progress - Architecting a unified engineering workspace integrating dual online/offline AI nodes, fabrication tooling, and a secure data-transfer system for isolated engineering workflows.
- **Drone** – In Progress - Designing and building a custom FPV quadcopter from scratch, including 3D-printed frame fabrication and full electrical/wiring integration
- **Tripoli L1 Rocket Certification** – In Progress - building high-power rocket airframe (fin alignment, motor mount/ring installation, epoxy work) ahead of certification flight.

Volunteering & Clubs

Warriors Ascent | Scouts of America | Lego League |

ISU - | Rocketry | AIAA | Supply Chain Management Club | Intramural Flag Football

Skills

SolidWorks, Onshape, Python, MATLAB, SolidWorks

Honors and Leadership

Eagle Scout Recipient

September 2024
